- BSBWHS510 Contribute to the implementation of emergency procedures

Study Options

Five (5) day of face to face interactive workshop with assessments completed within a maximum twelve (12) months from day 1 of the workshop.

Distance education over a maximum twelve (12) months from enrolment. Course ware is provided online via the NSCA Student Portal.

Recognition of Prior Learning is available for those with adequate industry experience.

Who Should Attend

Safety officers, safety supervisors and managers, safety advisors, supervisors, health and safety representatives and workers that have WHS responsibilities.

This course is aimed at participants who are either in a WHS role working under limited supervision and may provide leadership and guidance to others relating to WHS matters, or wanting to secure a WHS role.

Entry Requirements

There are no formal entry requirements, however participants should be able to access a workplace in order to complete the required assessments.

Learning Outcomes

On completion of this qualification, participants will have the knowledge and skills to:

- Implement and support the workplace WHS management system
- Prepare and advise workplace personnel for dealing with WHS issues
- Understand WHS legislative requirements and assist with monitoring workplace compliance
- Implement WHS initiatives and processes that support organisational WHS goals.
- Apply knowledge of risk assessment to contribute to the selection of risk-assessment techniques, tools and processes for common hazards
- Contribute to setting up and running of WHS consultation and participation processes.

Award

Upon successful completion of the required assessments, participants will be awarded the BSB41415 Certificate IV in Work Health and Safety.
