Description:

This training course enables participants to gain a Diploma of Work Health and Safety (WHS). It will provide participants with the opportunity to grow their practical knowledge and skills in the development, implementation and management of WHS programs/systems.

Content:

The Diploma of Work Health and Safety provides participants with the knowledge and skills to:

- Recognise, evaluate and manage health and safety hazards in the workplace.
- Administer various work health and safety functions, planning and policy and process development in the workplace.
- Communicate effectively with personnel at all levels of the organisation.
- Develop actions, interventions and measures to prevent re-occurrences of incidents.
- Achieve change in WHS matters.
- Gather and analyse relevant WHS information and data.
- Contribute to the implementation, review and improvement of the WHS plan and WHS management system.

This course is delivered by NSCA.
